

Name _____

Take the NWEA Challenge!

We use NWEA tests to see how much you've learned and grown as a student throughout a year. The most important thing that we look for is how you grow and improve your scores from one test to another.

Below are your scores from the Fall NWEA tests. Take a look at your scores and then, set a goal for yourself – how much do you think you've improved from Fall to Spring? Set a goal for your NWEA scores for Spring. Remember: you don't want your goal to be too easy, but you also don't want it to be so difficult that you can't achieve it.
