United Way Multicultural Chef Luncheon

Community Schools

On the Move with the Office of Community Schools

This week many of our Community School teams, Site Coordinators, and CET members will be attending the Community Schools National Forum in Baltimore, Maryland. If you are curious about what we will be learning in Baltimore follow this link - <http://www.communityschools.org/>

The primary goal and highlight for this forum will be tours provided of current community schools in Maryland. Our teams will be able to see strong and fully developed community schools in action, take notes, ask questions of school leaders, and shadow their peers as they conduct the day-to-day business of their school.

It will be a great week!
